TYPE G

THE EGO PRINCIPLE.

TYPE F

Rolf Benz EGO. The tailored sofa. Assemble your dream sofa from 2 basic types, 5 seat widths, 9 modular units, 16 side elements, 10 foot designs, 3 grades of upholstery softness, 3 seat depths and 3 seat heights. And select the ideal covers for your needs and your style from our extensive fabric and leather collection. More than 230 fabrics and 100 leathers make choosing a pleasure – and make your sofa unique. But first we want to know about your design preferences: depending on your personal taste, decide on one of the two basic Rolf Benz EGO shapes, Type G or Type F, which we will introduce to you in more detail on the following pages. From the smallest apartment to a spacious loft: Rolf Benz EGO offers you unique seating comfort in every shape.

TYPE G

PURIST AND LINEAR.

With Rolf Benz EGO Type G, you are opting for classic design. The straight side pieces with the backrest located in between are striking features. Discover the tremendous diversity of Rolf Benz EGO Type G as a living landscape or as a classic individual sofa. Type G offers an especially large selection of side parts. Their width influences the overall dimensions of the sofa decisively and can also be selected to save space in small rooms.

MODERN AND ELEGANT.

With Rolf Benz EGO Type F, you are choosing seating comfort on an unmistakably modern and elegant sofa. The particular hallmarks of this basic model are the back visible over the armrests and the shaped side sections. This design type also offers you a wide range of different modular elements and the full gamut of the Rolf Benz EGO concept.

Seat width: 210 cm
Total width:
with narrow side elements: 230 cm
with wide side elements: 246 cm
with XL side elements: 264 cm*
with adjustable side elements: 274 cm*

Determine your individual sofa design and select from two basic types. Type G personifies the classic style with straight side sections with a back interposed between them. And Type F wins you over with its modern design with contoured side sections and a back visible over the armrests.

As an individual sofa, Rolf Benz EGO is available in different seat widths to suit the layout of your room. The seat widths of 126 cm, 147 cm, 168 cm, 189 cm or 210 cm plus the width of the two side elements give the total width of the sofa.

* XL side elements and adjustable side elements only possible in Type G.

The side elements are available in different heights and breadths, and also with matching side element cushions for even greater comfort. The width of the side sections (10 cm, 18 cm or 27 cm) has a major influence on the total size of the sofa, and a more space-saving option can be chosen for smaller rooms. The total height of the side elements depends on the seat height.

The choice of leg has a major effect on how your Rolf Benz EGO sofa looks. We offer a large choice of stylish leg elements in many different designs. In wood or metal, as a brace leg or skid – all our feet are perfectly matched to the various side elements.

* Not with end chairs with upholstered seat and modular angled sofa.

** Not with XL side element width.

STEP 6:
SEATING COMFORT

Seating comfort soft*

Seating comfort medium

Seating comfort firm*

Seating comfort soft*
Increased “give” and gentle seat support through a soft, coordinated combination of viscoelastic foam and polyether foam, worked into a filled fabric separated by chambers and walls.

Seating comfort medium
Stability of shape, slight “give” and comfortable seat support through a highly elastic combination of viscoelastic foam and polyether foam, worked into a filled fabric separated by chambers and walls.

Seating comfort firm*
Firm seat cushion for good support achieved by a sandwich construction made up of several layers of high-quality polyether foams and a varying density in combination with a non-woven/foam composite fabric.

How do you like to sit? With Rolf Benz EGO, we offer three completely different cushion concepts: soft, medium and firm seating comfort levels. The back cushions are always in line with the grade of comfort of the seat cushions. To find the level of comfort that you prefer most, we recommend that you try out all three comfort levels at one of our trading

partners on the specially developed Rolf Benz EGO test chair. Here, different seat depths and seat heights can also be simulated, and so you can choose the combination of seating comfort, seat depth and seat height that suits you best.

* Not possible with ottoman and ottoman stool.

**STEP 7:
SEAT DEPTHS**

Seat depth: 52 cm*
Total depth: 96 cm

Seat depth: 55 cm*
Total depth: 96 cm

Seat depth: 62 cm*
Total depth: 103 cm

**STEP 8:
SEAT HEIGHTS**

Seat height: 43 cm*
Total height incl. back cushion: 82 cm
Side element height: 51 cm (low),
57 cm (medium) or 66 cm (high)

Seat height: 45 cm*
Total height incl. back cushion: 84 cm
Side element height: 53 cm (low),
59 cm (medium) or 68 cm (high)

Seat height: 47 cm*
Total height incl. back cushion: 86 cm
Side element height: 55 cm (low),
61 cm (medium) or 70 cm (high)

To meet your individual requirements when it comes to sitting comfortably, Rolf Benz EGO comes in the seat depths 52 cm, 55 cm and 62 cm. If you like to sit upright with comfortable support, your best choice is 52 cm or 55 cm. The 62 cm seat depth is perfect for tall people and/or a more relaxed position.

The right seat height is very important for comfortable seating. Depending on your size and sitting habits, you should therefore choose one of the three different seat heights offered by Rolf Benz EGO. *Please note that the seat height and depth can vary because of the different grade of expansion of the cover materials and the different cushion structures. Different dimensions apply for the club chair.
